Auditor's report and auditor (factual section; no alert)

the open-data opinions section is only for the latest DFP version; the version used came from ENET
Auditor in the 2010 FCA: Solutions Auditores Idependentes.
Auditor in the 2011 FCA: Solutions Auditores Idependentes.
Auditor in the 2012 FCA: Confiance Auditores Independentes.
Auditor changes (one line per change, canonical name by the firm's CVM code):
- 2012: Solutions Auditores Idependentes -> Confiance Auditores Independentes. The outgoing firm audited 5 consecutive fiscal years (2007 to 2011), by the start and end dates in the FCA. The change coincides with the end of the 5-fiscal-year term and is compatible with the rotation rule (art. 31 of CVM Instruction No. 308/1999, in force when the new firm started).

Auditor rotation: under CVM Resolution No. 23/2021, art. 31, the same independent auditor may not serve the same client for more than five consecutive fiscal years, with a minimum interval of three fiscal years before being hired again; under art. 31-A, the term is up to ten consecutive fiscal years when the company has a statutory audit committee in permanent operation and the auditor is a firm. The Resolution has been in force since 2021-04-01 (art. 41); before that, the equivalent rule was in arts. 31 and 31-A of CVM Instruction No. 308/1999, revoked by the Resolution (art. 40, I). A change of auditor is a fact, not an alert.

Explanatory notes · Reverse factoring and forfaiting

The reader found no mention of reverse factoring (risco sacado), forfaiting or supplier agreements in the notes of this DFP. Absence of mention does not prove absence of the operation.

Auditor's report

Type of opinion: qualified

- [basis for the opinion] “Base para opinião com ressalvas sobre as demonstrações contábeis individuais e consolidadas 1) Conforme mencionado na nota explicativa nº 10, em 31 de dezembro de 2012, a Companhia mantém contrato de empréstimo firmado junto ao Banco Bamerindus do Brasil S.A., no montante de R$19.505 mil, bem como contrato de mútuo junto a Alfred C. Toepfer Exportação Ltda. no valor de R$4.133 mil. Para 31 de dezembro de 2012, não recebemos as respostas das cartas de circularização para confirmação desses saldos. Não nos foi possível, nas circunstâncias, obter evidência de auditoria apropriada e suficiente para concluirmos sobre a existência e adequação dos referidos passivos de R$19.505 mil e R$4.133 mil em 31 de dezembro de 2012 ou se havia necessidade de ajustar esses valores, bem como se existiam outros saldos, entre eles empréstimos e garantias, avais ou operações materiais que eventualmente não tenham sido registradas e/ou divulgadas nas demonstrações contábeis. 2) Também, conforme mencionado na nota explicativa nº 10, em 31 de dezembro de 2012 a Companhia mantém contrato firmado junto Banco Santander (Brasil) S.A.” (cut at the end of a sentence, original excerpt in Portuguese)
- [emphasis of matter] “Ênfase As demonstrações contábeis foram preparadas no pressuposto da continuidade normal dos negócios da Companhia. Conforme mencionado na nota explicativa nº 1, em 23 de abril de 2004 foi concretizada a operação de locação de todos os ativos operacionais da Companhia. Essa operação viabilizou a renegociação dos seus passivos financeiros. De acordo com os contratos de renegociação firmados com os credores, e de locação, os recursos

decorrentes da locação destes ativos deverão ser obrigatoriamente direcionados para pagamento aos credores, além de cobrir os custos administrativos. Conforme descrito na nota explicativa nº 2, as demonstrações contábeis individuais foram elaboradas de acordo com as práticas contábeis adotadas no Brasil. No caso da Comercial Quintella Comércio e Exportação S.A., essas práticas diferem da IFRS, aplicável às demonstrações contábeis separadas, somente no que se refere à avaliação dos investimentos em controladas, coligadas e controladas em conjunto pelo método de equivalência patrimonial, enquanto que para fins de IFRS seria custo ou valor justo." (cut at the end of a sentence, original excerpt in Portuguese)
- [other matters] "Outros assuntos Demonstrações do valor adicionado Examinamos, também, as demonstrações individual e consolidada do valor adicionado (DVA), referentes ao exercício findo em 31 de dezembro de 2012, preparadas sob a responsabilidade da Administração da Companhia, cuja apresentação é requerida pela legislação societária brasileira para companhias abertas e como informação suplementar pelas IFRS, que não requerem a apresentação da DVA. Essas demonstrações foram submetidas aos mesmos procedimentos de auditoria descritos anteriormente e, em nossa opinião, estão adequadamente apresentadas, em todos os seus aspectos relevantes, em relação às demonstrações contábeis tomadas em conjunto." (cut at the end of a sentence, original excerpt in Portuguese)

Reference Form
The Reference Form for this fiscal year was not available on the date. It is the only version available in the open data; earlier versions are not there.

Limits of this section:
- In real documents, about 22% of the excerpts come out omitted by the name detector, including names of companies outside the registry.
- In tables, header lines (years, column titles) may come out as excerpts; the held-out cases had no tables with multi-line headers.

How the engine was tested
In study 1, engine v1 detected 7 of 13 detectable cases, with 108.3 false alarms per detected case over the whole period and an alert rate of 49.9% among evaluated non-financial company-years (docs/summary.md).

Limits
- No alert is not a clean bill of health. In Dechow, Sloan and Sweeney (1995), the most powerful accruals model rejected 'no manipulation' for only 28.1% of 32 companies sanctioned by the SEC (Table 7, p. 32).
- In study 1, 49.9% of evaluated non-financial company-years (48.3% including financial companies) were in alert, and the number of detections did not beat chance in a descriptive test done after the result: 7 detections in 13 detectable cases, against 7.37 expected by chance without assuming independent years (8.56 assuming independent years).
- Risk models use numbers that may be manipulated (Pereira and Martins 2015, p. 29). That is why the three families are not added up.

Limitations
- Structure read from a document filed after the date (study 1 behaviour, amendment 8)
- ENET version: the cache keeps values already in reais and did not record the page's scale (fetches before 2026-11-09)
- Context indicators (Altman Z'' and Piotroski F) were not validated in Brazil by this project and do not trigger alerts
