Possible manipulation (engine v1, study 1)

Financial risk (context only)

Altman Z" (financial risk, context only)
  Value: −951.948 (index)
  Components: X1 = −0.828; X2 = −205.481; X3 = −41.057; X4 = −0.712 (indices)
  Percentile in sector and year: 12 (n = 12)
  The company's own history: fewer than 5 previous fiscal years with a value
  - No cut-off zone: the available source does not define zones for Z"
  - Coefficients estimated outside Brazil; bankruptcy models lose validity over time (Pereira and Martins 2015, p. 25)

Financial quality (context only)

Piotroski F (financial quality, context only)
  Value: F = 2/9 (7 computable)
  Signals:
    - Return on assets (ROA): 0
    - Operating cash flow on assets (CFO): 0
    - Change in ROA: 1
    - Cash above earnings (ACCRUAL): 0
    - Change in leverage: 0
    - Change in current ratio: 1
    - No equity issuance (EQ_OFFER): —
    - Change in gross margin: —
    - Change in asset turnover: 0
  - No equity issuance (EQ_OFFER), from the cash flow statement: 6.03 lines of the frozen "emissões" pattern (reconnaissance, part 4.2), only those about shares or capital, as the article defines it ("did not issue common equity", p. 9); adaptation: preferred shares also count, because in Brazil they are equity, and the line is identified by text in the cash flow statement
  - No long-term debt in either year: the change in leverage is zero and the signal is 0 (project choice; the article only defines fell = 1, rose = 0, p. 8)

Changes

Restatement through the following year's comparative: no difference above the tolerance, or the next year's DFP did not exist yet on the date.

What was known on the date

Auditor's report and auditor (factual section; no alert)

Auditor's report: Sem Ressalva (unqualified).
no opinion excerpt was found in the text
Auditor in the 2014 FCA: KPMG Auditores Independentes.
Auditor in the 2015 FCA: KPMG Auditores Independentes.
Auditor in the 2016 FCA: KPMG Auditores Independentes.
Auditor changes (one line per change, canonical name by the firm's CVM code):

- 2012: Deloitte Touche Tohmatsu Auditores Independentes -> KPMG Auditores Independentes. The outgoing firm audited 3 consecutive fiscal years (2009 to 2011), by the start and end dates in the FCA.

Auditor rotation: under CVM Resolution No. 23/2021, art. 31, the same independent auditor may not serve the same client for more than five consecutive fiscal years, with a minimum interval of three fiscal years before being hired again; under art. 31-A, the term is up to ten consecutive fiscal years when the company has a statutory audit committee in permanent operation and the auditor is a firm. The Resolution has been in force since 2021-04-01 (art. 41); before that, the equivalent rule was in arts. 31 and 31-A of CVM Instruction No. 308/1999, revoked by the Resolution (art. 40, I). A change of auditor is a fact, not an alert.

Document excerpts (copied; no alert)

Excerpts copied from the documents, with the page, and the Reference Form table. It is not a signal family: it generates no alert, score or ranking. Absence of mention does not prove absence.
How the reader was tested: 20 held-out cases, a single measurement with the frozen reader (c99c953): precision 0.962, coverage 0.962, literal check on 132 of 132 excerpts, no natural-person name (docs/leitor_medida.json).

Explanatory notes · Reverse factoring and forfaiting
The reader found no mention of reverse factoring (risco sacado), forfaiting or supplier agreements in the notes of this DFP. Absence of mention does not prove absence of the operation.

Auditor's report
Type of opinion: unqualified
- [emphasis of matter] “Ênfase A Companhia apresentava, em 31 de dezembro de 2012, capital circulante líquido negativo de R$ 51 mil (R$ 1.959 mil em 31 de dezembro de 2011) e passivo a descoberto de R$ 151 mil (R$ 8.904 mil em 31 de dezembro de 2011). Conforme divulgado na Nota Explicativa no. 1, a Administração está elaborando estudos e mantém discussão com os seus acionistas para início de suas operações. Dessa forma, para liquidação de suas obrigações será necessário a obtenção de recursos de seu acionista controlador Telemar Norte Leste S.A. A falta dos referidos recursos levantaria dúvidas significativas quanto a capacidade da Companhia iniciar as suas operações. Nossa conclusão não está ressalvada em função deste assunto.” (original excerpt in Portuguese)
- Excerpt omitted; see the auditor's report in the document

Reference Form
Form of 2013, version 8, filed on 2014-05-20.
It is the only version available in the open data; earlier versions are not there.
- Related party (name omitted) · text omitted (natural-person name) · Linha de crédito cedida pela Telemar para a Companhia · 2000000.00 · R$ 100.235,64

Limits of this section:
- In real documents, about 22% of the excerpts come out omitted by the name detector, including names of companies outside the registry.
- In tables, header lines (years, column titles) may come out as excerpts; the held-out cases had no tables with multi-line headers.

How the engine was tested

In study 1, engine v1 detected 7 of 13 detectable cases, with 108.3 false alarms per detected case over the whole period and an alert rate of 49.9% among evaluated non-financial company-years (docs/summary.md).

Limits

- No alert is not a clean bill of health. In Dechow, Sloan and Sweeney (1995), the most powerful accruals model rejected 'no manipulation' for only 28.1% of 32 companies sanctioned by the SEC (Table 7, p. 32).
- In study 1, 49.9% of evaluated non-financial company-years (48.3% including financial companies) were in alert, and the number of detections did not beat chance in a descriptive test done after the result: 7 detections in 13 detectable cases, against 7.37 expected by chance without assuming independent years (8.56 assuming independent years).
- Risk models use numbers that may be manipulated (Pereira and Martins 2015, p. 29). That is why the three families are not added up.

Limitations

- Context indicators (Altman Z'' and Piotroski F) were not validated in Brazil by this project and do not trigger alerts

Evidence in the JSON: 36 DFP lines, each with document, version, filing date, account and location.
