Auditor's report and auditor (factual section; no alert)

Auditor's report: Sem Ressalva (unqualified).
Excerpt checked literally: "Em nossa opinião as demonstrações financeiras acima referidas apresentam adequadamente, em todos os aspectos relevantes, a posição patrimonial e contábil da da COMPANHIA INDUSTRIAL SCHLOSSER S.A., em 31 de dezembro de 2011, o desempenho de suas operações e os seus fluxos de caixa para o exercício findo naquela data, de acordo com as práticas contábeis adotadas no Brasil.Outros assuntosA Companhia atravessa a fase inicial pós-aprovação do seu plano de recuperação judicial, no qual foi apreciado e aprovado por unanimidade pelos credores na assembléia geral em 19 de outubro de 2011."
Auditor in the 2010 FCA: BDO Trevisan Auditores Independentes.
Auditor in the 2011 FCA: BDO Trevisan Auditores Independentes, Muller & Prei Auditores Independentes S/S.
Auditor in the 2012 FCA: Muller & Prei Auditores Independentes S/S.
Auditor changes (one line per change, canonical name by the firm's CVM code):
- 2011: BDO Trevisan Auditores Independentes -> Muller & Prei Auditores Independentes S/S (transition: two firms in the 2011 FCA). The outgoing firm audited 1 consecutive fiscal years (2010 to 2010), by the start and end dates in the FCA.

Auditor rotation: under CVM Resolution No. 23/2021, art. 31, the same independent auditor may not serve the same client for more than five consecutive fiscal years, with a minimum interval of three fiscal years before being hired again; under art. 31-A, the term is up to ten consecutive fiscal years when the company has a statutory audit committee in permanent operation and the auditor is a firm. The Resolution has been in force since 2021-04-01 (art. 41); before that, the equivalent rule was in arts. 31 and 31-A of CVM Instruction No. 308/1999, revoked by the Resolution (art. 40, I). A change of auditor is a fact, not an alert.

Document excerpts (copied; no alert)

Excerpts copied from the documents, with the page, and the Reference Form table. It is not a signal family: it generates no alert, score or ranking. Absence of mention does not prove absence.
How the reader was tested: 20 held-out cases, a single measurement with the frozen reader (c99c953): precision 0.962, coverage 0.962, literal check on 132 of 132 excerpts, no natural-person name (docs/leitor_medida.json).

Explanatory notes · Related parties
The reader found no note with "partes relacionadas" (related parties) in the title.

Explanatory notes · Reverse factoring and forfaiting
The reader found no mention of reverse factoring (risco sacado), forfaiting or supplier agreements in the notes of this DFP. Absence of mention does not prove absence of the operation.

Auditor's report
Type of opinion: unqualified
- [other matters] “Outros assuntos A Companhia atravessa a fase inicial pós-aprovação do seu plano de recuperação judicial, no qual foi apreciado e aprovado por unanimidade pelos credores na assembléia geral em 19 de outubro de 2011. Posteriormente, em 07 de novembro de 2011, o juízo da recuperação judicial ratificou a aprovação do plano pela assembléia geral, e concedeu a recuperação judicial de forma retroativa à data da assembléia geral. Até a presente data, as atividades da Companhia no ano de 2011 continuam totalmente paralisadas.” (original excerpt in Portuguese)
- Excerpt omitted; see the auditor's report in the document

Reference Form
The Reference Form for this fiscal year was not available on the date. It is the only version available in the open data; earlier versions are not there.

Limits of this section:
- In real documents, about 22% of the excerpts come out omitted by the name detector, including names of companies outside the registry.
- In tables, header lines (years, column titles) may come out as excerpts; the held-out cases had no tables with multi-line headers.

How the engine was tested

In study 1, engine v1 detected 7 of 13 detectable cases, with 108.3 false alarms per detected case over the whole period and an alert rate of 49.9% among evaluated non-financial company-years (docs/summary.md).

Limits

- No alert is not a clean bill of health. In Dechow, Sloan and Sweeney (1995), the most powerful accruals model rejected 'no manipulation' for only 28.1% of 32 companies sanctioned by the SEC (Table 7, p. 32).
- In study 1, 49.9% of evaluated non-financial company-years (48.3% including financial companies) were in alert, and the number of detections did not beat chance in a descriptive test done after the result: 7 detections in 13 detectable cases, against 7.37 expected by chance without assuming independent years (8.56 assuming independent years).
- Risk models use numbers that may be manipulated (Pereira and Martins 2015, p. 29). That is why the three families are not added up.

Limitations

- Context indicators (Altman Z'' and Piotroski F) were not validated in Brazil by this project and do not trigger alerts
