Auditor's report and auditor (factual section; no alert)

Auditor's report: Com Ressalva (qualified).
Excerpt checked literally: "Em nossa opinião, exceto pelos possíveis efeitos, se houver, do assunto mencionado no parágrafo Base para opinião com ressalva, as demonstrações financeiras individuais acima referidas apresentam adequadamente, em todos os aspectos relevantes, a posição patrimonial e financeira da Mundial S.A."
Auditor in the 2011 FCA: Directa Auditores.
Auditor in the 2012 FCA: Directa Auditores, KPMG Auditores Independentes.
Auditor in the 2013 FCA: KPMG Auditores Independentes.
Auditor changes (one line per change, canonical name by the firm's CVM code):
- 2012: Directa Auditores -> KPMG Auditores Independentes (transition: two firms in the 2012 FCA). The outgoing firm audited 3 consecutive fiscal years (2009 to 2011), by the start and end dates in the FCA.

Auditor rotation: under CVM Resolution No. 23/2021, art. 31, the same independent auditor may not serve the same client for more than five consecutive fiscal years, with a minimum interval of three fiscal years before being hired again; under art. 31-A, the term is up to ten consecutive fiscal years when the company has a statutory audit committee in permanent operation and the auditor is a firm. The Resolution has been in force since 2021-04-01 (art. 41); before that, the equivalent rule was in arts. 31 and 31-A of CVM Instruction No. 308/1999, revoked by the Resolution (art. 40, I). A change of auditor is a fact, not an alert.

Explanatory notes · Reverse factoring and forfaiting
The reader found no mention of reverse factoring (risco sacado), forfaiting or supplier agreements in the notes of this DFP. Absence of mention does not prove absence of the operation.

Auditor's report
Type of opinion: qualified
- [basis for the opinion] “Base para opinião com ressalva Conforme mencionado nas Notas Explicativas 19 e 20, a Companhia mantém saldos contábeis relativos às suas obrigações fiscais e sociais de impostos. Os valores apresentados pelos órgãos fiscais, relativos aos impostos a recolher apresentam divergências em relação aos saldos contábeis da Companhia. A Companhia está em processo de revisão dos saldos tributários divergentes com as posições dos órgãos

fiscais, que envolvem um volume significativo de processos, informações de terceiros e estudos da legislação para a apuração dos saldos finais, e estas não foram finalizadas até a conclusão da nossa auditoria. Consequentemente, não nos foi possível concluir se eventual ajuste seria necessário nos ativos, passivos e no resultado do período como resultado da resolução deste assunto." (original excerpt in Portuguese)
- [emphasis of matter] "Ênfase Continuidade operacional e debêntures a receber de empresa relacionada Sem ressalvar nossa opinião, chamamos a atenção para o fato de que a Companhia apresenta alto endividamento de curto prazo e passivo tributário em processo de revisão conforme Notas Explicativas 19 e 20. Além disso, possui debêntures a receber de empresa relacionada nos valores de R$ 960 mil e R$ 388.047 mil, demonstrados no circulante e não circulante, respectivamente, cuja recuperação depende do sucesso da administração daquela entidade na implementação de plano de reestruturação, tendo em vista a situação patrimonial e financeira daquela empresa, que apresenta atualmente capital de giro negativo e passivo a descoberto (patrimônio líquido ativo). Essas condições indicam a existência de incerteza significativa que podem levantar dúvida significativa quanto à capacidade de continuidade operacional da Companhia. A continuidade normal dos negócios da Companhia depende do sucesso na implementação das medidas descritas na Nota Explicativa 2." (cut at the end of a sentence, original excerpt in Portuguese)

Reference Form
The Reference Form for this fiscal year was not available on the date. It is the only version available in the open data; earlier versions are not there.

Limits of this section:
- In real documents, about 22% of the excerpts come out omitted by the name detector, including names of companies outside the registry.
- In tables, header lines (years, column titles) may come out as excerpts; the held-out cases had no tables with multi-line headers.

How the engine was tested
In study 1, engine v1 detected 7 of 13 detectable cases, with 108.3 false alarms per detected case over the whole period and an alert rate of 49.9% among evaluated non-financial company-years (docs/summary.md).

Limits
- No alert is not a clean bill of health. In Dechow, Sloan and Sweeney (1995), the most powerful accruals model rejected 'no manipulation' for only 28.1% of 32 companies sanctioned by the SEC (Table 7, p. 32).
- In study 1, 49.9% of evaluated non-financial company-years (48.3% including financial companies) were in alert, and the number of detections did not beat chance in a descriptive test done after the result: 7 detections in 13 detectable cases, against 7.37 expected by chance without assuming independent years (8.56 assuming independent years).
- Risk models use numbers that may be manipulated (Pereira and Martins 2015, p. 29). That is why the three families are not added up.

Limitations
- Context indicators (Altman Z'' and Piotroski F) were not validated in Brazil by this project and do not trigger alerts
