Auditor's report and auditor (factual section; no alert)

Auditor's report: Com Ressalva (qualified).
no opinion excerpt was found in the text
Auditor in the 2014 FCA: KPMG Auditores Independentes.
Auditor in the 2015 FCA: KPMG Auditores Independentes.
Auditor in the 2016 FCA: KPMG Auditores Independentes.
Auditor changes (one line per change, canonical name by the firm's CVM code):

- 2012: Directa Auditores -> KPMG Auditores Independentes (transition: two firms in the 2012 FCA). The outgoing firm audited 3 consecutive fiscal years (2009 to 2011), by the start and end dates in the FCA.

Auditor rotation: under CVM Resolution No. 23/2021, art. 31, the same independent auditor may not serve the same client for more than five consecutive fiscal years, with a minimum interval of three fiscal years before being hired again; under art. 31-A, the term is up to ten consecutive fiscal years when the company has a statutory audit committee in permanent operation and the auditor is a firm. The Resolution has been in force since 2021-04-01 (art. 41); before that, the equivalent rule was in arts. 31 and 31-A of CVM Instruction No. 308/1999, revoked by the Resolution (art. 40, I). A change of auditor is a fact, not an alert.

Auditor's report
Type of opinion: qualified

- [emphasis of matter] “Ênfase Continuidade operacional e debêntures a receber de empresa relacionada Chamamos a atenção para o fato de que a Companhia incorreu em prejuízo consolidado de R$ 51.810 mil (R$ 28.722 mil em 2014) e possui passivo a descoberto (patrimônio líquido negativo) de R$ 19.429 mil em 31 de dezembro de 2015 (patrimônio líquido positivo de R$ 8.646 mil em 2014), apresenta alto endividamento de curto prazo e possui parcelamento de passivo tributário em processo de homologação conforme nota explicativa 21. Além disso, possui debêntures a receber de empresa relacionada nos valores de R$ 960 mil e R$ 303.678 mil (R$ 960 mil e R$ 303.678 mil em 2014), demonstrados no ativo circulante e não circulante, respectivamente, cuja realização depende do sucesso da administração daquela entidade na implementação de plano de reestruturação, tendo em vista a situação patrimonial e financeira daquela empresa, que apresenta atualmente capital de giro negativo e passivo a descoberto (patrimônio líquido negativo). Essas condições indicam a existência de incerteza significativa que pode levantar dúvida significativa quanto à capacidade de continuidade operacional da Companhia.” (cut at the end of a sentence, original excerpt in Portuguese)

Reference Form
The Reference Form for this fiscal year was not available on the date. It is the only version available in the open data; earlier versions are not there.

Limits of this section:
- In real documents, about 22% of the excerpts come out omitted by the name detector, including names of companies outside the registry.
- In tables, header lines (years, column titles) may come out as excerpts; the held-out cases had no tables with multi-line headers.

How the engine was tested
In study 1, engine v1 detected 7 of 13 detectable cases, with 108.3 false alarms per detected case over the whole period and an alert rate of 49.9% among evaluated non-financial company-years (docs/summary.md).

Limits
- No alert is not a clean bill of health. In Dechow, Sloan and Sweeney (1995), the most powerful accruals model rejected 'no manipulation' for only 28.1% of 32 companies sanctioned by the SEC (Table 7, p. 32).
- In study 1, 49.9% of evaluated non-financial company-years (48.3% including financial

companies) were in alert, and the number of detections did not beat chance in a descriptive test done after the result: 7 detections in 13 detectable cases, against 7.37 expected by chance without assuming independent years (8.56 assuming independent years).
- Risk models use numbers that may be manipulated (Pereira and Martins 2015, p. 29). That is why the three families are not added up.

Limitations

- Context indicators (Altman Z'' and Piotroski F) were not validated in Brazil by this project and do not trigger alerts
