Auditor's report and auditor (factual section; no alert)

Auditor's report: Sem Ressalva (unqualified).
Excerpt checked literally: "Em nossa opinião, as demonstrações contábeis acima referidas apresentam adequadamente, em todos os aspectos relevantes, a posição patrimonial e financeira da Americanas S.A. e da Americanas S.A. e suas controladas em 31 de dezembro de 2021, o desempenho de suas operações e os seus respectivos fluxos de caixa, bem como o desempenho consolidado de suas operações e os seus fluxos de caixa consolidados para o exercício findo nessa data, de acordo com as práticas contábeis adotadas no Brasil e as normas internacionais de relatório financeiro (IFRS) emitidas pelo International Accounting Standards Board (IASB)."
Auditor in the 2019 FCA: PricewaterhouseCoopers Auditores Independentes.
Auditor in the 2020 FCA: PricewaterhouseCoopers Auditores Independentes.
Auditor in the 2021 FCA: PricewaterhouseCoopers Auditores Independentes.
Auditor changes (one line per change, canonical name by the firm's CVM code):
- 2011: Ernst & Young Auditores Independentes S.S. -> PricewaterhouseCoopers Auditores Independentes (transition: two firms in the 2011 FCA). The outgoing firm audited 2 consecutive fiscal years (2009 to 2010), by the start and end dates in the FCA.
- 2016: PricewaterhouseCoopers Auditores Independentes -> KPMG Auditores Independentes. The outgoing firm audited 5 consecutive fiscal years (2011 to 2015), by the start and end dates in the FCA. The change coincides with the end of the 5-fiscal-year term and is compatible with the rotation rule (art. 31 of CVM Instruction No. 308/1999, in force when the new firm started).
- 2019: KPMG Auditores Independentes -> PricewaterhouseCoopers Auditores Independentes. The outgoing firm audited 3 consecutive fiscal years (2016 to 2018), by the start and end dates in the FCA.

Auditor rotation: under CVM Resolution No. 23/2021, art. 31, the same independent auditor may not serve the same client for more than five consecutive fiscal years, with a minimum interval of three fiscal years before being hired again; under art. 31-A, the term is up to ten consecutive fiscal years when the company has a statutory audit committee in permanent operation and the auditor is a firm. The Resolution has been in force since 2021-04-01 (art. 41); before that, the equivalent rule was in arts. 31 and 31-A of CVM Instruction No. 308/1999, revoked by the Resolution (art. 40, I). A change of auditor is a fact, not an alert.

Reference Form
The Reference Form for this fiscal year was not available on the date. It is the only version available in the open data; earlier versions are not there.

Limits of this section:
- In real documents, about 22% of the excerpts come out omitted by the name detector, including names of companies outside the registry.
- In tables, a header line (years, column titles) may still come out as an excerpt: in the reader's measurement, 1 of 19 header texts of the held-out cases came out as excerpts.

How the engine was tested
In study 1, engine v1 detected 7 of 13 detectable cases, with 108.3 false alarms per detected case over the whole period and an alert rate of 49.9% among evaluated non-financial company-years (docs/summary.md).

Limits
- No alert is not a clean bill of health. In Dechow, Sloan and Sweeney (1995), the most powerful accruals model rejected 'no manipulation' for only 28.1% of 32 companies sanctioned by the SEC (Table 7, p. 32).
- In study 1, 49.9% of evaluated non-financial company-years (48.3% including financial companies) were in alert, and the number of detections did not beat chance in a descriptive test done after the result: 7 detections in 13 detectable cases, against 7.37 expected by chance without assuming independent years (8.56 assuming independent years).
- Risk models use numbers that may be manipulated (Pereira and Martins 2015, p. 29). That is why the three families are not added up.

Limitations
- Context indicators (Altman Z'' and Piotroski F) were not validated in Brazil by this project and do not trigger alerts
